

LIBRARYCO INC. –

POLICY ON ACCESS TO THE DESKTOP DELIVERY INITIATIVE

The Desktop Delivery Initiative was developed by LibraryCo for lawyers practising in associations that have been designated as "local". In 2010 desktop access was expanded to include lawyers in Algoma, Kenora and Thunder Bay. In order to ensure that LibraryCo remains compliant with its contractual obligations, only lawyers whose principal practice location falls within one of the designated counties or districts, as reflected by their Law Society of Upper Canada member record, will be eligible for desktop delivery.

Approved by the LibraryCo Board of Directors on May 14, 2010
